

LABEL HOLDER FOR RACKS

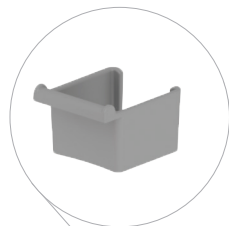

OUR NEW LABEL HOLDER IMPROVES ITEM IDENTIFICATION AND IMPLEMENTATION OF COLOR-CODING

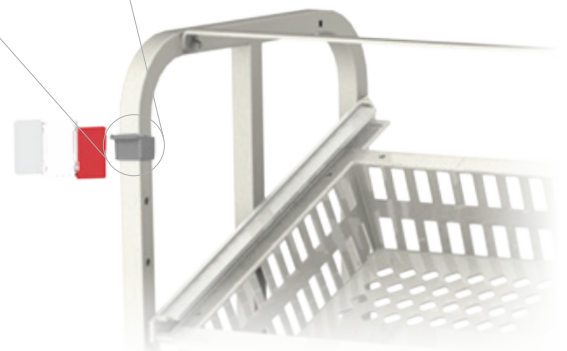

LABEL HOLDER 30/30MM FOR HYGIEIA RACK

LBL-INTR-HYG

LABEL HOLDER 25/25MM FOR RACK

LBL-INTR-F74

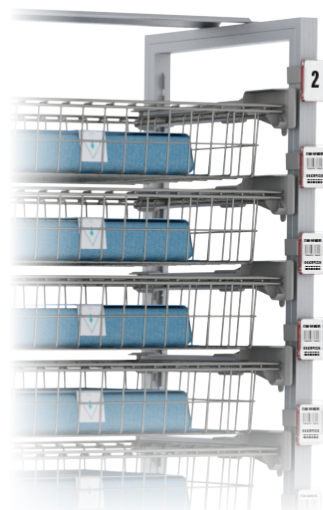

COLUMN NUMBERING

Column numbering assists both clinical and logistics teams with item location identification, reducing the amount of time it takes to locate supplies

ITEM NUMBERS AND DESCRIPTIONS

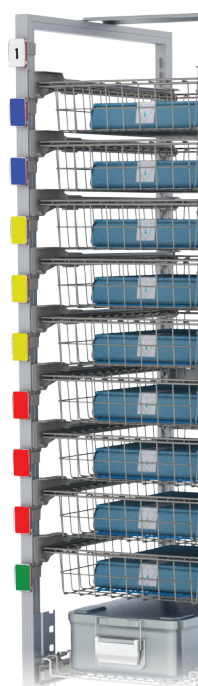

Easily place labels with barcode and supply information to identify instruments packs and other supplies

COLOR CODING

Use color coding for fast visual recognition of product location based on categories i.e each type of procedure set is assigned to a specific color and category

While the basket is removed the location is still being marked as an empty location for a specific category
