

LIGHT ON YOUR WALLET, AMPLE FOR YOUR NEEDS

Engineered for modern healthcare with advanced antimicrobial technology, ergonomic features, and cost-efficiency. This ultralight cart enhances clinical workflows, boosts provider satisfaction, and improves patient care outcomes

✓ **ANTIMICROBIAL POLYMER**

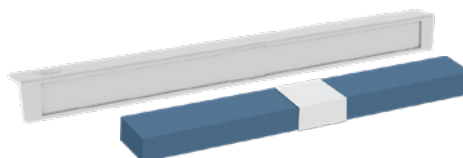

It minimises the risk of nosocomial infections, ensuring safety for patients and healthcare providers

✓ **ECONOMICAL EXCELLENCE**

Equip your teams with top-tier equipment within budget, improving resource and financial management

✓ **ULTRALIGHT DESIGN**

Weighing only 55 lb (25 kg), its lightweight design allows quick, easy transport, improving response to clinical needs

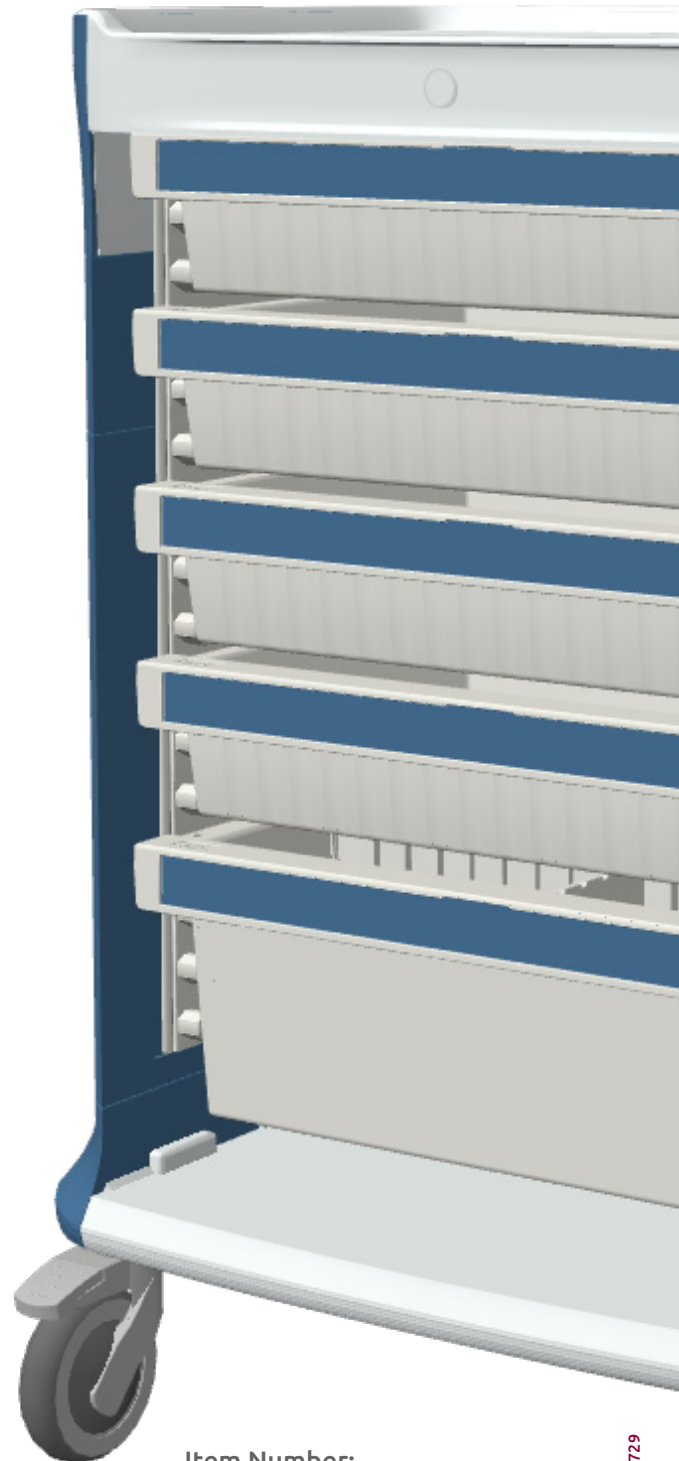

We specially injected antimicrobial handles and made matching color-coded strips:

LBL-HDL-E-AM-G (Handle)

LBL-HDL-E-B5023 (Strip)

* Modules need to be ordered separately
