

MEDICATION MANAGEMENT COMPLETE SOLUTION

**STREAMLINING HEALTHCARE EFFICIENCY WITH
INTEGRATED MEDICATION MANAGEMENT SOLUTIONS**

20 YEARS OF EXPERIENCE

At Pegasus Medical, we transform workspaces with meticulously designed solutions that enhance workflow and maximize productivity.

With over 20 years dedicated to studying and understanding the needs of healthcare professionals, our solutions are born from a wealth of expertise. The user's needs serve as our guiding light, shaping innovations that empower and deliver excellence.

Our Medication Management solutions is designed to simplify how medications are administered, ensuring precision, efficiency, and the highest standards of safety.

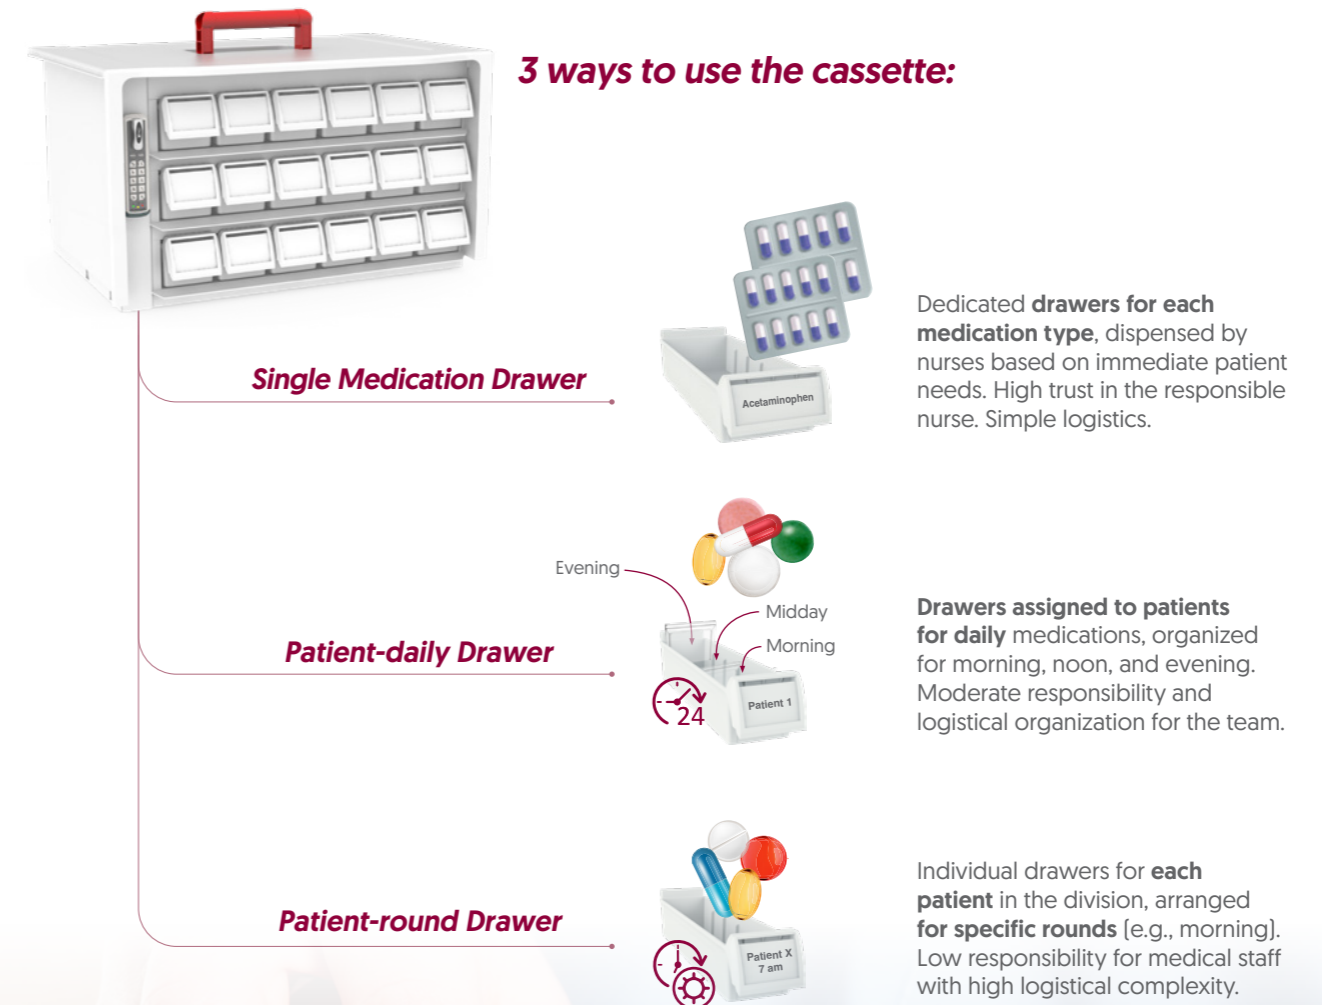

WORKFLOW

OUR MISSION IS CLEAR:

MEDICINE MANAGEMENT TO FIT ANY HOSPITAL NEEDS

With years of expertise, we transform knowledge into tailored solutions, crafting the perfect workflow to meet your specific medicine management needs. The study below illustrates our approach in the three situations commonly encountered in most hospitals

FULL SOLUTION FOR MEDICATION MANAGEMENT

PHARMACY & MEDICATION STORAGE

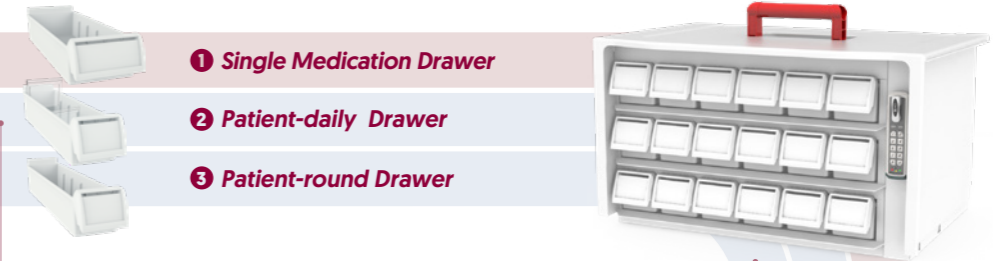

Adapt any pre-existing cabinets to align with our ISO6040 work method using our inserts
Cabinets

Storage units that can be moved to fit any floor plan needed
Apollo Line

Organized medication with up to 40% more storage space with our modules and dividers
ISO6040

MEDICATION SEPARATION

1 Single Medication Drawer

2 Patient-daily Drawer

3 Patient-round Drawer

Create the best work cycle for your hospital needs using a combination of 2 drawer sizes, dividers, and label covers
Medicine Cassette Drawers

Easy transportation and interchangeable between all our Products. Available in 2,3,4 and 5 Levels
Medicine Cassette

PRESCRIPTION

IN-PATIENT / OUT-PATIENT

Powder Coated Medicine carts
Ecoline

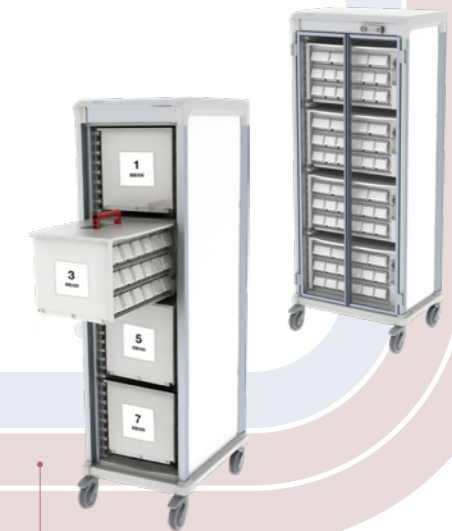

Antimicrobial Polymer Medicine carts
Poly line

DISTRI BUTION

Easy transportation and interchangeable between all our Products
Medicine Cassette

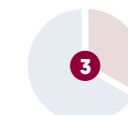

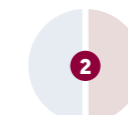

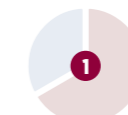

STORAGE & TRANSPORTATION

Versatile units that can be used not only as storage but also for transportation
Apollo Line

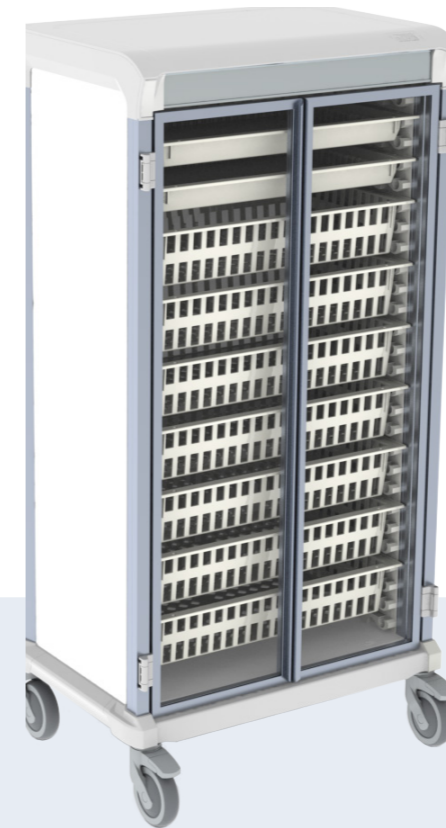

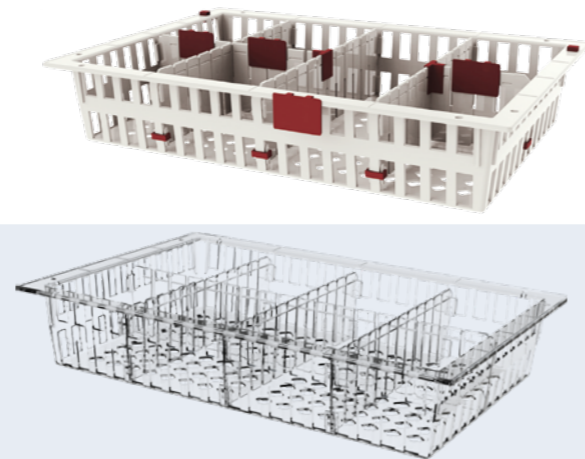

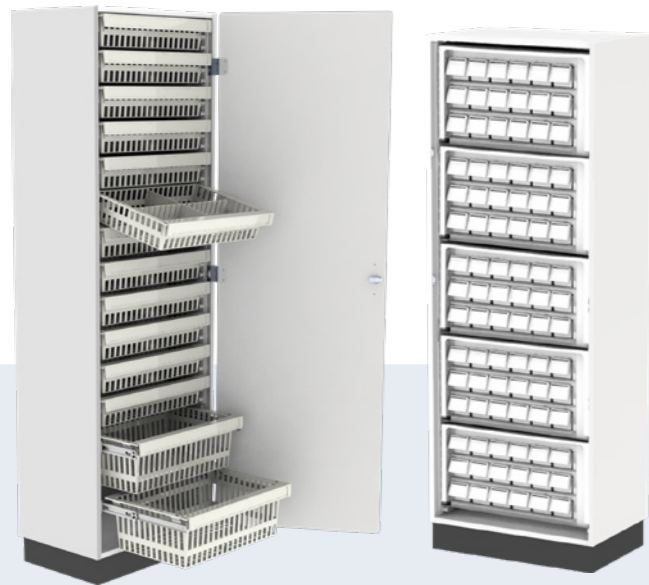

These are the 3 most common medication management cycles used in hospitals, but we can adapt and create a cycle to fit any hospital's needs

Complexity Level
Nurse x Logistics

Nurse
Logistics

PHARMACY & MEDICATION STORAGE ELEVATED

CABINETS

Fit for already existing cabinets

✓ ADAPTIVE INSERTS

With the use of our form-molded side panels, your cabinets will now accommodate ISO trays and baskets

✓ EUROPEAN STANTARD

Adapt your existing cabinets to fit the european ISO by using our side panels and modules

* This is a Low Tech solution and not recommended for High Performance solutions

40%
More Storage

ISO6040
Divisible Modules

✓ VISIBILITY

Transparent baskets make it possible to see items through the bottom when located in storage over 1.6 m / 5.3 ft

KanBan

Inventory Management

✓ SECURE CONTROL

Don't loose any expensive inventory by using this divider system to keep track of everything

APOLLO

Storage & Transportation Units

✓ IMPERMEABLE

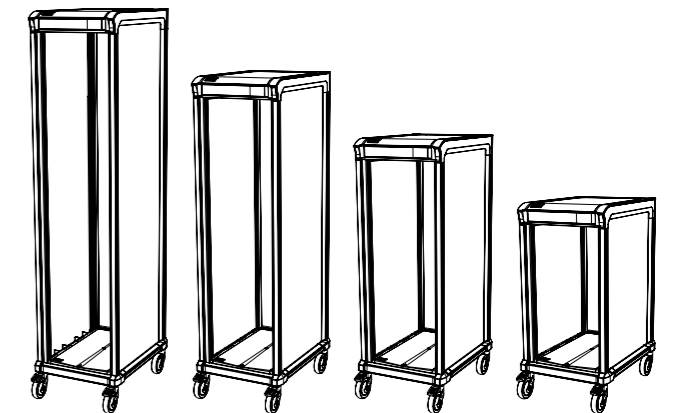

All surfaces of the cabinet are made of polymeric, moisture-resistant materials, making them impermeable to external contaminants

✓ LIGHTWEIGHT

Lightweight and sturdy cabinets, ideal for both storage and transportation

✓ CONFIGURABLE

Choose from 4 heights, 2 depths, and widths. Connect up to 3 units for 3 different lengths to design your room to fit your needs

Future of cabinetry:

Storage units that can easily adapt to any needed floor plan, giving you the flexibility to change the room

SMART & INTUITIVE MEDICATION SEPARATION

THE FUTURE OF STORAGE & TRANSPORTATION

MEDICINE CASSETTE

Mobile Medication Unit

✓ ISO6040 FIT

This is the only cassette in the market that can fit in ISO6040 both ways

✓ CUSTOMIZABLE

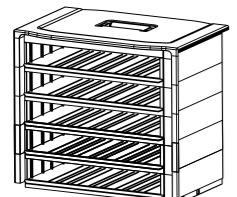

With 4 heights and 4 different drawers with dividers you can make a cassette that will suit your needs.

4 Heights:

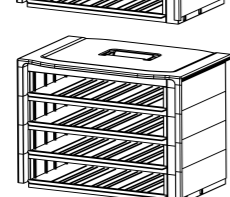

2 Levels
MED-CAST-2L

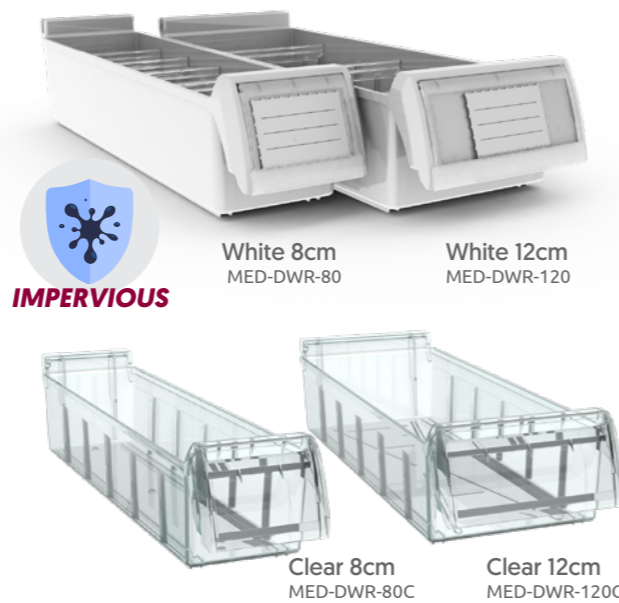

3 Levels
MED-CAST-3L

5 Levels
MED-CAST-5L

4 Levels
MED-CAST-4L

IMPERVIOUS

White 8cm
MED-DWR-80

White 12cm
MED-DWR-120

Clear 8cm
MED-DWR-80C

Clear 12cm
MED-DWR-120C

MEDICATION DRAWERS

Impermeable Polymer Injected

✓ IMPERMEABLE

100% polymer-injected drawers, making them impermeable to external contaminants and easy to clean

✓ VERSATILE

4 different drawers with dividers and a labeling system make it easy to organize and identify everything inside

APOLLO

Storage & Transportation Carts

✓ E-TYPE FOR EASY IDENTIFICATION

The E-Type units with glass doors offer clear visibility of the medicine cassette, making it easier to identify the contents within.

Ideal for high turnover medication with low security concerns.

Can be made into a more secure unit by adding locks

✓ U-TYPE FOR NARROW SPACES

Navigate through narrow spaces with ease. This unit still gives access to all the medication within, even in a confined space

✓ U-TYPE FOR CONFIDENTIALITY

Keep the content within the cart hidden from prying eyes and safe while still having easy access to the contents.

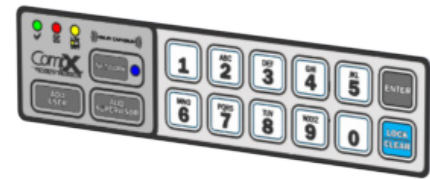

Add tumble doors to have an extra layer of security

3 level cassette = 1 panel

For ease of use and interchangeability, we recommend the 3 level Medicine Cassette

KEEP MEDICATION SAFE WITH OUR ADVANCED LOCKING SYSTEMS

CENTRAL MANAGEMENT RFID LOCK

✓ CENTRAL CONTROL

- All access and activity are managed, monitored, and controlled from a central hub
- Suited for larger-scale operations where multiple access points need to be controlled
- Have integration capabilities with other systems and technologies

LOCAL MANAGEMENT RFID LOCK

✓ LOCAL CONTROL

- Access and permissions are managed locally, often at the individual lock or a local controller
- Suitable for smaller-scale applications or systems with fewer access points

CODE LOCK

✓ SIMPLE RELIABILITY

- Access is granted with a numeric code that is set by the owner or administrator of the lock
- Self-contained and can be installed in various locations without extensive infrastructure.

Safeguarding controlled substances from theft or misuse is crucial. Strict access controls through our locks systems help ensure these potent medications are only administered under professional supervision, bolstering patient safety and trust

Talk to our representative to figure out what is the best medicine management locking system solution for your hospital's need

SIMPLY ORGANIZED DISTRIBUTION

ECOLINE

Powder Coated cart

✓ FAST TRANSPORT

Crafted from durable materials, their modular structure allows for quick reconfiguration

POLY

Antimicrobial Polymer cart

✓ CUTTING EDGE

- 100% Antimicrobial polymer
- Modularity
- Lightweight, yet structurally strong
- High cleaning resistance
- ISO 3394 suitable
- IT accessories suitable
